

CHRISTUS Health - Texas A&M

Corpus Christi, TX

Why CHRISTUS Health?

- Extremely friendly EM residency program with new ED & facilities on the beach.
- Lots of social gatherings for residents, loved ones and faculty and outstanding outdoor recreation.
- High acuity patient population in an urban setting.
- One of only two residencies at the hospital so we do not share procedures or patients with any other competing residencies.
- Residents serve as Chief Residents on MICU and Trauma.
